To: webmaster@michellepace.com

Dear IT Security Team,

A security researcher reported a security vulnerability affecting [www.michellepace.com](http://www.michellepace.com) website via Open Bug Bounty coordinated and responsible disclosure program: <https://www.openbugbounty.org/reports/673660/>

Following ISO/IEC 29147 standard guidelines, we verified the vulnerability's existence prior to notifying you. Please contact the security researcher directly for technical details of the vulnerability. The researcher may also help remediate the vulnerability if you need any assistance. If you received this notification by error, please accept our apologies and forward it to your IT security team or a person in charge of your website security.

Might you need to any help, please, refer to: <https://www.openbugbounty.org/open-bug-bounty/>

Stay secure,

Open Bug Bounty
